PROFESSIONAL SUMMARY

Full-stack developer and computer science undergraduate with hands-on internship experience at IBM and Cisco, skilled in building and deploying machine learning-powered web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Proficient in Python, Java, JavaScript, REST API design, CI/CD pipelines, and Agile collaboration. Solved 320+ algorithmic problems on LeetCode; recognized with Cisco NetAcad Bronze Medal for excellence in networking fundamentals. Seeking a software engineering internship or entry-level role to contribute scalable, impactful solutions.

TECHNICAL SKILLS

- Languages: Java, Python, JavaScript, TypeScript (basic), SQL
- Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, CI/CD (GitHub Actions), REST APIs, Postman
- CS Fundamentals: Data Structures & Algorithms, OOP, Computer Networks, OS Fundamentals • Methodologies: Agile / Scrum, Team Collaboration, Client Communication

PROFESSIONAL EXPERIENCE

Machine Learning Intern | IBM Skills Build | Remote

Dec 2024 – Jan 2025

- Engineered a full-stack fake news detection web application using Python and ML classification algorithms (Logistic Regression, Naive Bayes), achieving ~89% classification accuracy on a 20,000- article dataset.
- Reduced false-positive misinformation flags by 22% by tuning model hyperparameters and applying TF-IDF vectorization for feature extraction.
- Collaborated cross-functionally in an Agile workflow to gather requirements, document technical specifications, and deliver the project within a 6-week sprint.

Network Engineering Intern | Cisco | Remote

Jun 2024 – Aug 2024

- Designed and executed 15+ networking simulations in Cisco Packet Tracer to evaluate system throughput, latency, and failover performance under peak-load conditions.
- Identified and documented 3 critical network bottlenecks by analyzing simulation data, contributing to a 15% improvement in simulated network reliability.

- Organized and maintained project documentation and datasets for a 5-member engineering team, reducing onboarding time for new members by approximately 20%.

Co-Vice President

Jun 2024 – Present

- Planned and facilitated leadership and self-development workshops for 100+ students, driving a 35% increase in session engagement through interactive activities and structured goal-setting frameworks.

PROJECTS

Guardly AI - Smart Safety Monitoring System | MongoDB, Express.js, React.js, Node.js, AI APIs
GitHub: github.com/Abhijith-Sura/guardly-ai

- Built a real-time safety monitoring platform with AI-driven threat detection alerts, processing live event streams with sub-200ms average response latency.
- Designed and implemented 12 scalable REST API endpoints with Express.js, supporting concurrent user sessions and integrated MongoDB for efficient data persistence.
- Optimized backend query performance by 40% through MongoDB indexing and connection pooling, reducing average API response time from 350ms to 210ms.

AI Loan Recommendation Platform | Next.js, Tailwind CSS, REST APIs, CI/CD

GitHub: <https://github.com/Abhijith-Sura/ai-integrated-loandashboard>

- Developed an AI-powered loan comparison engine with an integrated conversational chatbot, improving page load performance by 40% via server-side rendering and lazy loading in Next.js.
- Implemented secure JWT-based user authentication, third-party API integrations, and an automated CI/CD pipeline using GitHub Actions for zero-downtime deployments.

EDUCATION

B.Tech in Computer Science Engineering (CSE)

Expected: April 2027

- GPA: 8.33/10.0
- Relevant coursework: Data Structures, Algorithms, Database Management, Computer Networks, Operating Systems, OOP

CERTIFICATIONS & AWARDS

- Cisco Certified Network Associate (NetAcad) - Bronze Medal | Cisco | 2024 - Awarded for excellence in networking fundamentals, routing protocols, and network security.
- IBM AI & Machine Learning Completion Certificate | IBM Skills Build | 2025

ACCOMPLISHMENTS

- Solved 320+ problems on LeetCode across arrays, graphs, dynamic programming, and system design, consistently ranked in the top 30% globally.
- Completed IIT Hyderabad - Discover Yourself Program focused on goal setting, self-development, and leadership.
- Built an AI-powered portfolio and resume builder at a national-level hackathon within 24 hours, placing in the top 10 teams.
